Professional Summary

Passionate AI developer focused on building intelligent SaaS products powered by LLMs, Retrieval-Augmented Generation (RAG), agentic systems, and modern web technologies. Experienced in designing Persian voice assistants, semantic search solutions, and production-ready Django/Next.js applications. Strong analytical thinker with a proven record of academic excellence and competition success.

Education

Allame Helli 4 (Sampad) — Grade 11

Accepted into the National Organization for Development of Exceptional Talents (Sampad). Consistently ranked among the top three students.

Selected Projects

AI-powered E-commerce Platform

Built an e-commerce platform featuring a Persian voice shopping assistant using RAG for natural-language product discovery and consultation. Technologies: Python, LangChain, Django, AI.

Oodsan Coffee Shop Website

Developed a production website for a real customer with ordering, authentication, and management features using Django.

Persian Voice Agent

Implemented a conversational Persian voice assistant pipeline with speech processing and LLM integration.

Google Calendar Voice Agent

Created a LangChain-based Persian assistant capable of scheduling events through Google Calendar.

Semantic Image Search

Implemented image-based product retrieval for e-commerce using semantic search techniques.

Technical Skills

Languages: Python, JavaScript, TypeScript, HTML, CSS

AI: LangChain, LangGraph, Agentic Systems, RAG, Scikit-learn, Keras, Deep Learning

Web: Django, Next.js

Tools: Git

Achievements & Certifications

- Gold Medal – Kharazmi Web Development Competition (Tehran Province)
- Gold Medal – Kharazmi Web Development Competition (District 2)
- Qualified for first stage of Iran National Olympiad of Informatics (INOI)
- Advanced English – Iran Europe Institute
- Training in Python, Django, JavaScript, Deep Learning, TypeScript & Next.js – Tehran Technical Complex
- Accepted into Sampad

Personal Strengths

Deep analytical thinking • AI product design • Rapid problem solving • Building practical AI-powered SaaS solutions
